## PREFACE

This collection, like its predecessor, "Americana: 1925," is in part the work of thousands of readers of THE AMERICAN MERCURY—of so many, indeed, that it would be a complete impossibility to acknowledge individually my debts to them. Some of the more arresting of the press cuttings that follow came in simultaneously from as many as a hundred readers. Perhaps a half of the matter presented was first brought to my attention by such volunteers. The rest came from private friends, from more or less serious students of American psychology in the Universities, and from my own collectanea. I have been a constant and eager reader of American newspapers for thirty years, and have also devoted a great deal of time to the study of contemporary American pamphlets and broadsides, especially in the fields of religious, medical and political quackery. This copious and highly significant literature, I regret to say, has been little worked by scholars. Even the great American libraries appear to take no interest in it. But I should add that the Library of Congress is an exception. It has a large and very valuable collection of such documents and is constantly making additions to it. Such of my original material as seemed worth preserving has been deposited with the Library, and there, I hope, it

will instruct and delight students of the generations yet unhatched.

It will be observed that, as in the 1925 volume, religious interests and controversies are here to the fore. The reason is not far to seek. The Scopes trial at Dayton, Tenn., in the Summer of 1924, greatly stimulated the native piety of the American common people, and religious questions have been hotly debated ever since. Such questions, indeed, have always engrossed the Americano. They got into his politics in the earliest days of the Republic, and all subsequent efforts to drive them out have failed. At the present moment the Anti-Saloon League, which is a religious organization pure and simple, is more powerful than any other agency engaged in political agitation in the United States, and though evidences of its dishonesty and corruption are mounting up daily, it will probably hold its influence over professional politicians for a long time to come. It has failed to destroy the liquor traffic, but it is still able to influence elections, especially in the rural districts, and so its mandates are attended to, even by the President of the United States. Many references to it will be found in these pages. There is also frequent mention of the campaign of the Fundamentalists against the teaching of the hypothesis of evolution in the public schools. This campaign was given a brilliant start by the Scopes trial, which greatly alarmed the rustic pietists.

The monthly department of "Americana" in THE AMERICAN MERCURY is frequently under attack, and various efforts have been made to dispose of it by suppressing the magazine as a whole. It was partly respon-

## PREFACE

sible, I believe, for the ill-starred effort of the Watch and Ward Society to bar the magazine from Massachusetts, and also for the attempt of the Postoffice to bar the April, 1926, issue from the mails. When I went to Washington to protest against the latter outrageous proceeding, the Solicitor to the Postoffice, the Hon. Horace J. Donnelly, LL.B., offered certain paragraphs from "Americana" in defense of his position. What he particularly complained of as a violation of the national pruderies was actually an extract from a by-law adopted in a Western town! When I protested that punishing a citizen for publishing a public law was an action unheard of in Christendom, he delicately departed from the subject and lost himself in juridic apothegms.

At the request of various American patriotic societies, I have added to the present volume an Appendix from Foreign Parts. There are also notes for the use of foreign readers.

September 15, 1926.

H. L. MENCKEN.

# THE BIBLE

THE BIBLE is the most important book in the world. It is the word of God, and it is the foundation of our faith. It is the light that guides us, and the strength that sustains us. It is the book that has changed the lives of millions of people, and it is the book that will continue to do so for all time.

THE BIBLE is a book of many parts. It is divided into two main sections: the Old Testament and the New Testament. The Old Testament contains the stories of the patriarchs and the prophets, and the laws of Moses. The New Testament contains the life and teachings of Jesus Christ, and the writings of the apostles. The Bible is a book of many truths, and it is a book of many promises. It is a book that we should read every day, and it is a book that we should treasure.

News of Law Enforcement<sup>1</sup> from the Alabama back country in the Columbus (Ga.) *Enquirer-Sun*:

The other day a man eighty-four years of age was tried, convicted and sentenced to serve six months in the coal mines at Weiger, near Birmingham, and in addition, fined \$500, for violating the Prohibition law in Hale county. This old man was a Confederate soldier, having served under General Joseph E. Johnston.<sup>2</sup>

## 2

More from the Birmingham correspondent of the New York *World*:

The Ku Klux Klan<sup>3</sup> set out to-day to close all Chinese restaurants in this city. Its campaign evidently has the full approval of law enforcement officials. Search-warrants for liquor were issued by the Court of Misdemeanors to W. W. Israel, Cyclops of the Klan. Twenty robed Kluxers swooped down on three Chinese places. Fifty diners were searched and the raids netted a small flask of whiskey taken from the hip pocket of a college student. The raiders carried pistols. Their spokesman, clad in the full regalia of the Klan, served the warrants on the Chinese proprietors. As he and his men searched the diners he told them: "Finish your meals and

get out and stop patronizing these Chink <sup>4</sup> joints unless you are looking for serious trouble. There are plenty of good 100% American cafés in town."

Specimen epistle of a Southern university president, from the distinguished *Montgomery Journal*:

*To the Editor:*

I want to thank you for your generous policy in dealing with our game at Pasadena.

Some one has asked me to point out the outstanding sentiment expressed in the many letters that have come to us from the Pacific Coast since the great New Year's game. Perhaps the public would expect me to put in the foreground the letters congratulating us on the wonderful victory or the letters commending the fine sportsmanship of the team.

But these, after all, are not the things that have most profoundly touched my heart. The sentiment that has gripped me most mightily is found in the many expressions of appreciation of the conduct of these Southern boys in far-away California. For example, the Rev. Dr. John Marvin Dean, pastor of the leading Baptist church of Pasadena, before a great congregation, commended the refusal of these boys to violate the Sabbath day by engaging in practice, as the Western teams frequently do, or by doing any other unseemly thing. He pronounced a fine eulogy on the team's conduct as compared to that of other groups who have visited Pasadena. Our Southern people still "remember the Sabbath to keep it holy."

Far more important than the winning of the game is the fine ideal of conduct and living that these Alabama boys carried to the Coast and exemplified there in plain view of all

men. After all, I believe that this great fact will give to the fathers and mothers of Alabama the largest measure of satisfaction.

Specimen of Late Alabama prose by the gifted editor of the *Cullman Tribune*:

Then Judge Hugo Black, of Birmingham, who is not only one of the best known and most successful members of the Birmingham bar, but is truly a silver tongue orator and one of the ablest and most deepest thinkers in the South to-day, for his thoughts are not just of to-day, but he is ever looking into the future, grasping opportunities in lending his talents for the betterment of those who tomorrow will tread life's journey, trying to instill into the minds of those who are privileged to come in touch with him that on this earth there is work for one and all to do if they do the wish of the Saviour of men whose examples were given on this earth more than two thousand years ago, was introduced by President Fuller as the speaker of the evening.

Hymeneal orgies among the high-toned colored folk of Mt. Meigs, as described by the special correspondent of the eminent *Montgomery Journal*:

A marriage of cordial interest to a host of friends both in Alabama and Texas, was that of Alice Olenza Wingfield and James W. Smothers, which was solemnized Wednesday evening, at 6:30 p. m., in the auditorium of the Rogers building, State Reform School, Mt. Meigs, Ala. The ring cere-

mony was performed by the Rev. J. B. Holmes, pastor of the Old Ship A. M. E.<sup>7</sup> Zion Church, Montgomery. The auditorium was beautifully decorated for the occasion with southern smilax, fern and tall hanging baskets filled with gladioli, roses, and other cut flowers. The decoration on the rostrum was arranged to resemble a large flower garden, which formed a beautiful background. An appropriate program of music was rendered before and during the ceremony. Professor F. D. Adair, director of music at the State Normal<sup>8</sup> School, presided at the piano. Marie Mitchell, of Birmingham, sang "Because." Bertha Loveless, of Montgomery, sang "My Destiny." E. L. Goff, of State Normal School, sang "Oh, Promise Me." Under the direction of L. Camilla Hightower, director of physical culture of the State Normal School, the wedding procession began. As the strains of Mendelssohn's wedding march pealed forth from the piano, Groomsman Harold Saunders, of Montgomery, and W. E. Mitchell, of Tuskegee,<sup>9</sup> entered, followed by Faustine Hamblin and Elizabeth Charles, of Montgomery, bridesmaids. Next came W. B. Hill, of Centreville, and Burrell, of Tuskegee, followed by Fannie Nelms and Hortense Lewis, of Montgomery, bridesmaids. Then came Wilhelmina Welch, of Tuskegee, bridesmaid, and Clarence Lee, of Montgomery, groomsman. All of the bridesmaids and groomsmen stood upon the rostrum during the ceremony, which, added to the background of flowers, made a very beautiful picture. A. W. West, Jr., son of Dr. A. W. West, and Morris Hightower Williams, son of Morris Williams, both of Montgomery, were pages. Gelene Gregory, of Greenville, and a childhood friend of the bride, was maid of honor. E. Jones, of Marion, Ala., was matron of honor. Wilhelmina Grey, daughter of Dr. W. E. Gray, of Montgomery, and Annie Lee Cotton, sister of Jean Cotton, were

flower girls and scattered rose petals in the path of the bride. Wilhelmina's dress was blue georgette and lace, and Annie wore green georgette and rosebuds. The bride entered on the arm of her father, who gave her in marriage. Her veil formed a train, was trimmed with pearls and caught to her hair with orange blossoms. Her bouquet was bride's roses, showered with fern. She wore a string of pearls, the gift of the groom. They were met at an improvised altar of smilax, ferns and white roses, by the groom and his best man, Calhoun of the Veteran's Hospital, Tuskegee, Ala. Professor Adair softly played "To a Wild Rose" during the ceremony. More than four hundred representative citizens, white and colored, of Mt. Meigs, Montgomery, Tuskegee and other sections of the State witnessed the ceremony. Gifts received were numerous and valuable, coming from citizens of the community and other sections, representing both white and colored of all professions. An informal reception was tendered the guests, in honor of the bride and groom, on the campus while the school band entertained with choice selections.

### 9

Mellow words of the able editor of the Baldwin *Times*:

#### A SOURCE OF GREAT COMFORT

We've had in mind writing a little word of commendation of the Hedge and Fleming undertaking company for quite a while. First one thing and then another has delayed it.

It should be a source of considerable comfort to the people of this county to know that they have available such a fine organization as this one is, to handle the sad and ofttimes sorely trying duty of properly laying away our departed ones. No town anywhere, regardless of size, has any better qualified or more sympathetic morticians<sup>10</sup> than are the persons making up this organization. They are well informed on their business, as their advertisements, which appear weekly in the *Times*, disclose.

Another point which we would touch in passing is the need of properly cleaning up and disinfecting the quarters in which some contagious disease was treated, as often arises in their business. Hedge and Fleming understand fully all the laws of sanitation and their record is a most enviable one. The care which they bestow on those who pass away, and the thoughtfulness they show the survivors, are matters of great importance to the bereaved and are ones in which they excel.

Bulletin for Alabama boosters from the *Journal of the American Medical Association*:

Hookworm<sup>11</sup> infestation is one of the major public health problems of Alabama. Here the parasite has a wide distribution, for scarcely any county, town or village that has been studied has been found free of infestation. Among children of school age the incidence ranges from less than 5 per cent in some of the larger towns to 95 per cent in the heavily infested rural communities.

Bitter protest from a Bryanite <sup>6</sup> reader of the intellectual Los Angeles *Times*:

My daughter, Myrabel, until a year ago, was attending a private school where the biblical explanation of creation was taught. She was then a righteous and Christian maiden who had the highest ideals. She never smoked or swore.

Then I sent Myrabel to one of our so-called "Christian colleges" where she was compelled to study biology and its attending theory of evolution. I should have known better than to send her to these iniquitous colleges. After Myrabel had been taught evolution she no longer had the ideals that were hers before. Her self-respect is shattered. She has bobbed her hair; she uses cosmetics; she smokes and swears. Yesterday she fell so completely into the hands of the devil as to take liquor. I felt compelled to refuse her further admission into our home.

So, Mr. Editor, can you not help in the spreading crusade to stamp out the evolution forever and guide the Southwest in a return to a God-fearing righteousness?

How he-men<sup>14</sup> relax from the strains of Service in

## CALIFORNIA

---

Southern California, as brought to light by the Los Angeles *Examiner*:

So successful was the mustache growing contest won by the Lions Club<sup>15</sup> of Anaheim against the Lions Club of Ontario that when the silver loving mustache cup was handed to the winning team it was decided to have the words "first annual" incorporated in the inscription. The contest started thirty days ago and terminated when a committee of six women judges reviewed the exhibits offered by seventy men in the Valley Club at Pomona. To determine the winners the judges used calipers, magnifying glasses and T-squares.

From the Power of Prayer column of the Los Angeles *Examiner*:

I had cancer of the bones of the face for fourteen years and part of the jaw bone removed and a cavity in the bone to the eye about an inch across. After two operations and the best treatments known to medical science, it broke out the third time, affecting practically all the bones of the left side of my face, all of my throat, my nose was twice its size, there was a great blotch on the other side of my face and it had gone to the brain in two places.

I knew I could not live more than a few hours, so I stopped in the center of the floor and said, "Lord, you raised the dead and cleansed the lepers. You can heal me now." The power struck me and went through me like a bolt of lightning and I was instantly healed. My face was dreadfully swollen and stiff, but the stiffness left instantly and in a few hours' time the swelling was gone.

I was afflicted with many other diseases which seemed

incurable. We were compelled to leave Iowa on account of the asthma which I had for more than 10 years, had stomach and bowel trouble 14 years, inflammation of the bladder 15 years, had "flu" and pneumonia twice and the second attack left a place in each lung about three inches across that never healed, and it also left me with congestion of the spleen. I was born anemic, having had to take iron all my life, and when I was eighteen years old, the physicians, after consultation, told me to get the iron tablets in bottles of 500 and take from fifteen to eighteen grains a day, which I did. The vertebræ in my spine had not stayed in place for over twenty years, and I had to take treatments much of the time, suffering terrible headaches, until the physicians could not understand how I had not lost my mind.

But when the Lord healed me on March 19, 1921, I was healed completely of everything. The cavity in my face had to be packed with gauze every day, and just one year from the time I was healed the Lord closed up the opening in the bone and healed my eyes and delivered me of my glasses which I had worn twenty-nine years. I never knew a well day in my life until the Lord healed me. A mole on the side of my face and two corns on my feet also vanished.

year, of Lankershim, directed at him who stripped his automobile, as set forth in the *Los Angeles Times*:

Mere words are incapable of expressing my heartfelt thanks to you for leaving the paint on my car, and the air in the tires.

But I double dare you to return for that. If there is in you any of the spirit of Jesse James<sup>16</sup> and Rube Burrows, whom you so earnestly try to emulate, and you should try to return and get the dust and bills on the car, you will find an automatic shotgun that can empty five charges of buckshot over ninety degrees of Lankershim in nothing flat. If that isn't hospitality enough for you, maybe some soft noses will suffice.

In my estimation you are lower than whale tracks on the bottom of the ocean. You would sell your dead grandmother's skin for sausage casings.

Only the censorship of this newspaper prevents me from stating how, why and just what I really think of you.

Mispah, Kismet, Selah and Auf Wiedersehen!<sup>17</sup> May the Lord forgive you as I do—not! I hope I have made myself sufficiently clear.

Contribution to the New Jurisprudence by Britt, J., of

El Dorado, as revealed by an Associated Press dispatch:

Dr. A. W. Berrow, of Smackover, was charged with forging the name of a Hot Springs pathologist to a report on a blood test. Dr. W. T. Carter, of Hot Springs, appeared as the State's star witness. Following is the colloquy which passed between the defense attorney and the witness:

*Q.* Dr. Carter, do you believe in the existence of a Christian God?

*A.* No. I do not believe in the existence of a Christian God.

*Q.* Do you believe in a future life?

*A.* No.

*Q.* Do you believe in the doctrine of future rewards and punishment?

*A.* No, I do not.

*Q.* Do you believe that when a man dies he dies like a cow or animal?

*A.* Yes, I do.

*Q.* Do you believe in an omnipotent power?

*A.* No.

At this juncture Judge L. S. Britt ordered the witness dismissed and the indictment against Dr. Berrow quashed.

I saw boys and girls by the dozens drunk. I saw them in the rottenest kinds of places imaginable. Most of the down-town drunkenness was confined to the young people. In the hotels, the rooming houses, the bootleg establishments, I saw youngsters dead drunk night after night.

One of Sheriff Samuel H. Berkley's prisoners—M. E. Sackville-Balle—has departed from jail to take up the profession of minister. He had been in the county jail for many weeks and recently pleaded guilty before Justice G. W. Highsmith to a charge of passing a short check for \$1.25. He was sentenced to serve five days in jail. When it was learned that Sackville-Balle was about to secure his freedom the sheriff at Hugo and Denver officers informed Sheriff Berkley that the prisoner was wanted in those cities. From a printed notice handed to his tenants by the Hon. Leland Barton, LL.B., landlord of a series of rooming-houses in the great city of Wshington:

In a city parents with children generally have a hard time to get rooms. To intercept an unfavorable criticism of such administration, it is deemed self-defensive to give a philosophical reason therefor. Nature, demanding a continuation of the race, has engendered a blind affection of parents for their children and deposed their ordinarily good judgment, so parents generally fail to realize their children are bad and bothersome, hence a parent's word his children are good can not be depended upon. When parents physically punish their children, it is desirable that that act not break up the happy dreams of brides and grooms, of bachelors and maids within hearing distance, by unearthly yells of the children. So, if some children are admitted into some rooming houses, then in those particular ones *spanking parlors* will be padded and deadened for the use of parents.

The processes of justice in the late earthly habitat of the Archangel Bryan,<sup>1</sup> as described in an Aframerican journal:

Four colored people obtained berths in a Pullman car coming out of Palm Beach. Their tickets were secured by a white man. The conductor sees them. He telegraphs to a station, which the train is going to pass, to inform the officers of the law that niggers are on this train traveling first class. The dignity of the South is insulted. The sheriff calls on his deputies to avenge the sacred honor of their country. Anxiously they wait for the train to pull into their little town. Excitement runs riot. They are going to teach these niggers a lesson.

At four o'clock in the morning the officers of the law see the engine's headlight shining down the track. The whistle blows. Orders are given to stop. The brakes are hurriedly applied. Six men, brave and true, jump on the train to get four peacefully sleeping people. They are rudely awakened. The three women were not permitted to dress. One of them requested that she be given time to clothe herself. She was knocked down in the berth, snatched up, pushed out of the car and her clothing thrown out after her. Half naked they were carried to the jail. Southern gentlemen looked on and laughed.

## FLORIDA

---

For twenty-nine long hours these unfortunate people were forced to remain in jail as a tribute to the glorious South. A mock trial is begun. The judge hears the testimony: "These niggers were riding on a Pullman in Florida, please your Honor." "You are fined \$1,000.00, and if you try to do it again you will be turned over to a mob and lynched." Thus ended the case.

He missed landing on the exact spot but, nevertheless, our man felt the impact of the fire-eating Creationist. Fair notice to sweating Congressmen in the columns of the Athens *Banner-Herald*:

I am leaving tonight for Washington, where I hope to stir up something in regard to Cause and Cure of War via Constructive Toys, cradle rhythm with sense instead of nonsense of la Mother Goose. I believe the typewriter is the sine qua non tool in education. Dr. O'Shea thinks likewise and believes that a young child has greater advantages in life when taught how to use the typewriter at an early age. I am enclosing a picture of your humble servant and

three of her kiddies—one is the famous genius, Mary Elizabeth Steele, plays at seven as well as Hofmann played at ten—so say the critics.

Toy swords and pistols must go and our kiddies must be taught to be Busy Builders—a new organization that I have established in New York. All of the boys and girls (now over 10,000 in number) promise not to play with toy pistols but to adopt balls and typewriters as their toy friends.

They are my missionaries in trying to keep Mother Goose from the baby and instead of immoral Jingles such as "Tom, Tom, the Piper's Son" and "Taffy was a Welshman" they are teaching their baby sisters and brothers constructive Jingles.

End products of Law Enforcement in rural Georgia, as reported by the Atlanta *Georgian*:

Representative Emmet Williams, of Walton county, chairman of the House of Representatives penitentiary committee, told of visiting one county camp where the method of punishment was excessively severe. The prisoner to be punished was backed up to a post, and his hands were chained behind it. His arms were then raised as high as possible, and hung by the chains on nails provided for the purpose. The prisoner was forced to stand for hours with his arms twisted backward high above his head. Mr. Williams said that nails several feet higher than the others were driven especially for two one-armed prisoners at the camp.

Another case was that in which the convict to be punished was confined in a shallow box just large enough to hold him. Molasses was poured over his exposed face, and he was fastened, powerless to brush away the flies which flocked to the feast.

Failure of a desperate attempt to save souls in Macon:

Because the First Baptist Church was not getting enough conversions in a revival being conducted by the pastor, Dr. William Russell Owen, the congregation started, an all-night prayer service at eight o'clock last night. The rise of scientific business methods among Athens evangelists:

A novel method of checking up on collections has been developed by the Rev. Charles E. Neighbour, evangelist, who is conducting a series of religious services at a local church. Evangelist Neighbour has instructed all ushers who pass around the collection plate to whistle when anyone puts a greenback into the plate. The ushers have complied to the letter of the instructions and each night as the collection plate goes its rounds at the church where the revival is in progress a whistle is emitted by the usher when a greenback is espied.

The Hon. Harry G. Samson, of the executive board of the National Selected Morticians,<sup>3</sup> in plenary session at Chicago:

*Undertaker* is of doubtful origin. It has been replaced by *mortician* or *funeral director*. *Coffin* is an archaic word. *Casket* should always be used instead. There is no such thing as a *hearse* any more. It has been succeeded by *limousine funeral-car* or *casket-coach*. There was never any justification for the use of the word *parlor* for a mortician's establishment. *Mortuary* or *chapel* is the correct word. Morticians have banished *remains*. *Corpse* also is an undesirable word. *Body* or the name of the individual is correct. How the hotels of Omaha reward the heroes who saved the town from pillage and rapine by the Kaiser, as described by Comrade J. Elmer Disch, of Monahan Post of the American Legion, Sioux City, in the eminent *Iowa Legionnaire*:

What does "Welcome Buddy"<sup>1</sup> mean? Does it mean that when we are at a Legion convention that we Legionnaires should pay more for everything so that the profits are about three times that of ordinary times? We were on the tenth floor, in a large room, which ordinarily rents for \$6.50 for two with bath. But when we Legionnaires arrived they saw their chance to make a small fortune and they put in from five to twelve cots in each room and charged \$3.50 per day for each person, or \$17.05 even though you did not stay there the whole five days. It is useless to say what the accommo-

dations were when crowded together that way. The above also applies to the eats at the various places. They all made the extra profits from us. For instance, when it costs two-bits<sup>2</sup> for a frankfurter<sup>3</sup> sandwich and some coffee (?), I claim it is too much. ### I

Contribution to celestial pathology by the editor of the  
*Glasgow Republican*:

The flu has become epidemical in Monroe county and is killing many people. What is the flu? This question is asked by thousands and echo brings back no satisfactory response. Many theories, but nobody knows. One school of scholars believes that it is the outgrowth of poisoned gases, turned loose in the World War, and that this gas dips, rises, and dips, tornado-like, through all space.

Science teaches that both air and water purify themselves through travel over and through space, it also teaches that either can be so heavily charged with poison that it takes much space to purify it. Can it be that the air is now so heavily charged with poisonous gases that it poisons and kills many before it has traveled sufficiently far in space to purify itself?

We who are students of Sacred History can plainly see the dawning of the complete fulfillment of the Scriptures. They teach that the world will be finally burned up. Already scientists claim that man has invented a device by which 94% of air is burned up by its use in driving cars. If this is true, then only 6% of gas is added to make 100% of the mixture. Then from analytical reasoning, we must conclude that it is possible and highly probable that at such time, as we know not, the air will become

so heavily laden with poisonous and inflammable gases that are now being turned loose into space by the handiwork of man that, by electricity, it will be set on fire and sweep from the "face of the earth every living thing."

Contribution to medical science from a reader of the same great journal:

My mother was sick four years with the dropsy. She was tapped three times and the doctors took sixteen gallons of water from her. Then she died at the age of 40 years. I am now 74 years old. When I was at the age of 40 I had the dropsy. The doctor attended me eight weeks and then he told me he could not do anything more for me; that my mother had dropsy and I had taken it from her. The more medicine I took the worse I got. I had a wife and six small children and I did not want to die and leave my family. I took all the dropsy cures I knew of; none did any good. At last I found the only remedy that will cure dropsy.

I took a pint of common table salt and put it in the bathtub with about six gallons of warm water; kept all my underclothing on; got in the tub and soaked them good with the

salt water and then went to bed and slept soundly. The next morning when I got out of bed the dropsy and swelling were all gone. That was thirty-four years ago and I have never had any return of the dropsy.

After riding a short distance the girls stopped the car on a lonely road, he said. During a petting party<sup>6</sup> which followed, he said, one of the girls became enraged at his lack of ardor. A scuffle ensued. While two held him the third stabbed him with a hatpin. The girls fled, leaving the man helpless on

From a Christian reader of the celebrated Baltimore *Sunpaper*:

A lady friend of mine and I went to the Auditorium Theatre to see "What Price Glory." . . . What a shameful performance! To think that our generals and Y. M. C. A. directors permitted our soldiers while overseas to use vile oaths and consume strong drinks. Isn't this a reflection on all of us who were back home? Surely the Lord must have been displeased with our boys' conduct. No wonder so many of them were killed and injured. Our generals should have given them a good Christian training before sending them to the trenches. In the play I heard actually terrible oaths by a soldier who was severely wounded. If this young man had died, think of the eternal punishment that would have been his. It seems to me that our generals thought too much of rifles and bayonets instead of religion and sobriety. How can we win our future wars and destroy our enemies if our soldiers forget Christ?

Extension of the boons of the New Thought<sup>1</sup> to the Equidæ, as reported by the celebrated *Nautilus* of Holyoke:

Last year a dear friend and neighbor was fast losing a fine and valuable mare from blood poisoning. The year before she had cut a leg badly in a wire fence and it had never healed. Instead it grew worse until from her knee to her hoof was one awful sore as large around as man's head and covered over with a thick, ugly scab. The owner was a real lover of animals and had done all that could be done in a medical way, until at last it ran into blood poisoning and her entire body was swollen, and she was in great pain, her flesh constantly jerking and quivering.

They came to me for treatment only after all else had failed and her owner knew the end was near. I gave the horse the love treatment and the swelling was soon all gone. I used this statement in giving the treatment: "You are God's creature. You are bathed in His pure love. God breathes into your nostrils the pure clean breath of life and this life and love flows freely through you now, filling every cell, tissue and nerve, cleansing, purifying and healing you now. Your blood is clean and rich and pure. It flows freely through every vein in your body, cleansing and purifying every organ as it goes."

Happily the motorman's attention was not arrested elsewhere, and the car was stopped within an inch of running the young man down. No thanks to his female affinity who kept his gaze, he was saved in the nick of time.

From a reader of the *Christian Science Sentinel*:<sup>4</sup>

A few years ago my little dog apparently drank a solution of caustic potash. He was found some days later, and upon an examination it was found that his tongue had entirely gone, and death seemed inevitable. My husband insisted that I should have the dog chloroformed, saying it would be kindness to the little creature. I remembered the words, "Trust God more." Through absolute faith in God, I refused to permit the dog's life to be taken. Three times each day I bathed the dog's mouth with water, poured milk and oatmeal down his throat, repeated aloud to him "the scientific statement of being" from page 468 of "Science and Health with Key to the Scriptures" by Mary Baker Eddy, placed him tenderly on his bed, and left him in God's care without a bit of doubt. This treatment continued. During the time I was repeatedly told that I would fail, that I would realize I had insufficient understanding to demonstrate over such an extreme condition. Each time I realized God's power as being sufficient, provided I should not waver in faith, and that as Christian Science is the understanding of God, it could not fail. After a battle of several months, the dog's tongue grew again, and he barked, lapped his milk, and was completely restored to perfect health.

The rise of a new æstheticism in the late cultural center of the Republic:

The Argonaut Club, . . . said to be one of Boston's most exclusive night clubs, . . . is to be confined solely to those whose names are in the Social Register,<sup>5</sup> or prominent in the business and professional world. . . . Oriental rugs, antique brass and china imported from Holland are to figure in the decorations. And to make the effect more realistic, around the walls are suspended strings of Spanish garlic and dried peppers. A novel scheme of shielding the lights will be put in vogue. Antique pails, clothes baskets and old brass are to be used as shields, but the lights suspended over the middle of the dance floor take the big prize, for the subdued rays will peek their way through empty whiskey bottles and demijohns, arranged in a cluster from the ceiling. Religious statues, presumably to carry out the Spanish mission effect, are also generously used in the decorative scheme. In the ladies' retiring room, as a background, a life-size statue of the Virgin Mary has been placed in an alcove.

9

Another cultural note from Boston:

Miniature chewing-gum slot-machines have been installed in the Boston Elevated street cars on the Allston-Brighton line, and passengers may now secure their day's supply of gum by reaching above the seat, inserting their pennies in the slot and pushing the lever.

Why Boston is the dramatic capital of the Republic, as revealed in the cultured Boston *Herald*:

"What Price Glory?" will open at the Wilbur Theatre without a line of the profanity which lent much of the realism to its war-time scenes. The management agreed to the elimination of the strong language after an ultimatum by Mayor Curley that the play could not be produced here if the marines did not speak in the stage trenches as they would before their mothers and sisters. The mayor . . . was moved to remark, however, that the play was not as bad as Walt Whitman's poems. This comment was occasioned by his having found on his living room table yesterday morning a copy of Whitman which he had hidden behind the books in a bookcase. He brought the book in to City Hall to destroy it for his family's protection, but on hearing a prominent city official remark that he was curious to read it the mayor gave him the volume.

Law Enforcement note from the eminent *Winona Republican-Herald*:

A striking testimonial to the power of prayer was given by Mrs. Ida B. Wise Smith, national vice-president of the W. C. T. U.,<sup>1</sup> in speaking at the afternoon session of the State Institute here Wednesday. Mrs. Smith said that while attending the trial of fifteen bootleggers at Des Moines she prayed constantly, saying, "Please, Lord; please, Lord," whenever a vital ruling concerning the admission of testimony for the State was to be made by the Judge. "The Judge made his ruling in favor of the prosecution," she announced, "and the bootleggers were all found guilty and sent to prison."

us of attempted suicide in his last issue of his 2x4 measly, mangy sheet.

This long, lean, lanky, lantern-jawed, lop-eared, lop-sided, long-faced, hollow-eyed, pot-bellied, carping, whimpering wampus, this cross between a jelly-fish and a cur will answer to us, not in a libel suit, but personally.

We admit that we were ill last Wednesday evening. But to accuse us of self-destruction could only originate in the mind of an imbecile.

We have always safeguarded our health. It has been our custom after a hard day's work to step to the kitchen cabinet and take a tonic before retiring and upon arising in the morning.

We were about to retire and from custom reached into the cabinet and took a large, healthy swig and after quite a draught we noticed that the taste was off. Our better half had been housecleaning and accidentally placed a bottle of O'Cedar<sup>2</sup> in the cabinet. This is what we got hold of, but we wish to say that we were only slightly indisposed for a short interval.

Dithyrambs by the leading lady Christian poet of Southern Minnesota, distributed by the Olmstead County W. C. T. U.:<sup>3</sup>

To you, Mr. Bootlegger, now I will write,  
How I wish that instead of being black, you were white.  
You who were made in the image of God.  
Were never meant to grovel and creep like a worm in the  
sod.

If you do not stop, if you don't repent,  
Up to the City Jail you'll surely be sent.  
No longer you can buy judge and jury with money.  
Or with flattering words, meant to be sweet as honey.

Have you no regard for your fellowman  
Why don't you burn up your vile mash, still and pan?  
If you still keep on the fill your greedy big maw,  
You must surely feel the strong arm of the law.

The stuff that you make is full of poison and flies,  
Also contains some rats, bats and some mice  
Perhaps for good flavor, some bugs in disguise  
Beware folks, before using it, don't think once, but twice.

The vile concoctions that now you do sell,  
Are not even fit to put out the fires of hell  
Instead of putting them out, you start them, you do,  
What can ever be done with a rascal like you?

Announcement of a fair sorceress of the Pearl river country, lifted from the *Journal of the American Medical Association*:

DEAR SIR: I am a Dr. of rheumatism; and I can cure this disease; I call my self a magnetic, while by other Dr's I have been called the miracle woman; & by some a divine healer. I will say I am a natural born treater; my father was also like me, also my mother, and my ancestors on both sides back almost 150 years. I am the 7th birth of the family; my father the 7th my mother the 7th so you can see that I have a natural gift in this work, I can rub and take away all pains, no matter how long standing, if the parties have had them for 40 years. I am sending you and advertising sheet which i hand out when traveling, so you can see my line of work. I sur can cure the diseases printed on this sheet I not only say this but am actually making such cures over different parts of the state. I have taken people out of bed where the best medical Dr's of the state have given up and said there were no hope of recovery. My work has been tested through the courts in this country and the head Dr's at Jackson had to acknowledge through their attorneys that they could not do the things, that I were doing I have a lineament that has the worlds record, also a salve that leads the work in the cure of all kind of old sores I had a man to come

to me a few days ago and insisted on me putting my medicines in the laboratory at Washington. My whole souls desire is to cure the suffering people, of the world; but not being able financially I am not able to extend my work very far. I hunger to relieve suffering humanity; while God has given me this gift; I feel it my duty to do his bidding, now I ask the government to help me that I may extend my great work throughout this country, for the sake of suffering humanity.

My lineament when applied on the body goes direct to the bone, it has been tested in Jackson with the ex-ray, and received congratulations as having the world's record in lineament; I also have a rose cansor receipt for which rose cansors, can be burnt out and cured. This also came from my forefathers; but I do not try to use this, I would sell this.

I was asked to write you, concerning this business; so will only await an early reply, hoping that this letter may meet with an early reply and that it may be of service to the Gouvernement.

Yours sincerely

MRS F. V. HAWKINS

Extracts from a letter from the Hon. Alfred Hume, B.E., C.E., D.Sc., fellow A.A.A.S., chancellor of the University of Mississippi, to the Hon. Henry Lewis Whitfield, B.A., Kappa Alpha, Governor of that proud and imperial State:

A university is very different from a high-school. . . . If manned by men who are not intellectually free, I, for one, would prefer that a child of mine should never enter its doors. It would be a curse rather than a blessing. Where men are not free to think and to learn there is stagnation and death. . . .

Fundamentally and historically, the University of Mississippi is essentially a Christian institution, shot through and through with the spirit and teachings of our Lord. The deepest conviction of my own soul is that nothing save that which is Christian is permanently enduring and worthwhile. It goes without saying that anything tending toward atheistic teaching will never be tolerated by me for I believe that the Bible is fundamental in our civilization and that Christian principles furnish the only ultimate solution of the world's problems.

Christian want ad in the Biloxi *Herald*:

EVANGELIST wants location. Who will write me of a good location for a real estate office where I can locate a large number of thousands of friends whom I have evangelized? Shall bring with me an educated young man singer. We will sell property with the same Christianity we do Bibles on commission and preach to neglected places on Sun-

days. I seldom ever failed to have great evangelistic meetings, but demands for that work have grown cold. We shall locate in South Mississippi or in Florida, wherever is the best opening. Please address REV. W. D. BASS, Corinth, Miss.

How the soul of a late martyr is marching on:

Plans have been practically completed for the launching of a new secret order in Mississippi to be known as American Crusaders, which will have for its purpose the combating of the evolution theory in American schools and colleges. The Rev. A. R. Adams, of Hattiesburg, will be commander of the new order, which will also advocate the reading of the Bible in the public schools, and the increase of attendance in the Protestant churches.

Sinister notice in the *Meridian Evening Star*:

#### JUST GIVING YOU A CHANCE

There is a certain woman living on Tenth street, who has a hard-working, good husband. This woman is helping to wreck a certain home in this city. You have been talked to that you might see your mistake. You have not seen fit to change. Do you wish for your husband to know, absolutely, the facts in the case? It might cause trouble. You must correct this matter. This may refer to a colored woman or white woman. You know.

Proud boast of the *Deer Creek Pilot*, of Sharkey county:

It is with a great deal of pleasure that we announce to the people of Mississippi that, at last, we have gotten out of our textbooks all matter that reflects on the South in any way and all objectionable matter in reference to the theory

of evolution. We believe that we have for use in our agricultural high schools next year the only textbook on biology that does not mention the subject of evolution.

From the *Weekly Unity*, an organ of the Higher Life, published at Kansas City:

Insects are the result of error ideas of life and wrong uses of the life forces by man. . . . When divine order is established in man's thoughts and in his life, order will manifest also in the outer, and insects that prey upon vegetables, animals, and man will disappear. As man grows in understanding and in Truth, he will be troubled less and less by flies, mosquitoes, and bugs. They will disappear from his life as his consciousness is cleansed by Spirit and lifted up more fully into the Christ mind.

How the students of Washington University are taught to think, as reported by *Student Life*, the university paper:

Chancellor Herbert S. Hadley will open discussion in an assembly of all students in Graham Memorial Chapel, on the question of choosing a mascot for the university. All classes in the university will be dismissed to attend the discussion and debate which, as a result of student agitation on the question, will be dealt with as follows: Chancellor Hadley will first explain the underlying reasons for the

holding of the meeting and will introduce several prominent alumni who will discuss possible mascots for the university. Then discussion from the floor will be in order in the form of five-minute discussions with two-minute rebuttals on behalf of the various animals proposed. A vote will then be taken, on the question, "What animal is most desirable as the mascot of Washington University?"

From an unsophisticated reader of the *Columbia Tribune*:

Another very strong illustration of the working of Socialist propaganda was the Scopes trial to break the anti-evolution law at Dayton, Tenn. . . . The judges were Mrs. Grace Meader,

## NEW HAMPSHIRE

---

Rolfe Richardson and Charles Teague, who after 13 ballots decided in the negative.

In the affirmative it was argued that the mosquito belongs to a much higher social order than the bedbug, has a great deal of musical ability, while the bedbug has none. The mosquito is considerate about biting; approaches you with song, while the bedbug sneaks behind your back; lives outdoors, while the bedbug clutters up your house; is much more graceful in appearance, more honorable and is here only for a few months instead of all the time.

It was declared by the negative that the bedbug had the sweetest disposition, because it is very quiet and modest; was continually on its job, more athletic, more advanced than the mosquito scientifically. Its method of attack was declared to be according to modern science in warfare. The mosquito approaches you with fife and drum corps and with banner flying, while the bedbug uses modern science and meets its prey under cover.

pledge themselves to keep these cigars of such quality that those who come from afar to study at the Whitman Shrine will never find a product unworthy of the name of the master of the study of self-gratification!

If we had too much domestic tobacco it would be like Whitman's "Leaves of Grass" with his later writings omitted. Hot—but pretty strong taken by itself!

If we had an all-Havana cigar it would be like a steady diet of Whitman's "Apostroph"—a bit too heavy—

But we have blended the Havana and domestic in the Walt Whitman Cigar so you relish it at all times just as your book of Whitman's writings will always appeal if you blend your readings of his poems.

The chemical and physiological foundations of Prohibition, as revealed by a reverend reader of the esteemed *World*:

To be sure, alcohol does appear in nature; but what is it? It is an absolute scientific fact that alcohol is insect excreta. The myriads of little organisms at work devouring fruit juice do expel, as does every organism, a certain amount of excreta. But nature tries to get rid of this poison as quickly as possible by making it volatile in a high degree. It is whisked into the air, diluted, and in time, denatured, is usable again by the vegetable kingdom.

But what does man do? He bottles up this insect sewage and proceeds to guzzle it down. His own body, however, is wiser than his failing. Whenever this miserable stuff is swallowed, whether it be in champagne or beer, the human body immediately sets to work to expel it as quickly as possible. Circulation is excited, the kidneys work overtime, part of the poison is perspired and part gotten rid of by the breath and intestines.

Editorial in the *American Standard*,<sup>4</sup> organ of 100% Americanism:

Were it not for Roman Catholic Italians, Russian and Polish Jews, and other Latin and Oriental aliens, who have swarmed into our country like a plague of locusts, grand opera could not live five minutes in the American atmosphere. From center to circumference, it is foreign to the decent and Christian spirit of the United States.

The Metropolitan Opera House is the most thoroughly foreign institution in this country. Standing at the back of the house and surveying an operatic audience, one can scarcely find an Anglo-Saxon face. Jews and Italians predominate, with a liberal proportion of Germans, Slavs, and miscellaneous dregs of the Mediterranean and Levantine races.

With the downfall of Roman Catholicism in this country,

will come the crash of grand opera as well. Genuine Americans have no real feeling for it, and can neither produce operas nor act in them. To imagine George Washington, Benjamin Franklin, Thomas Jefferson, or any other such representative American paying to witness the horrors and sensualities of grand opera, is to imagine the impossible. . . .

She has been showing evidences of disturbance for about three weeks. Friday morning before day she attempted to lock her husband up in a room, saying that he was the devil and should be shut up. He broke out of the room, and seeing him, Mrs. Baucom became frightened and ran and jumped out of the piazza and fell in the yard. Her husband followed, and she, still thinking him the devil who was pursuing her, struck him in the face several times when he attempted to lift her up. Devastating logic of the Rev. Charles F. Bluske, of Asheville:

After many years of study I have found that every Bolshevik of Russia, socialist, infidel and anarchist, believe in evolution. They are men who have no religious standard, nor high ideals of Christianity. This gang of infidels is joined by a narrow-minded set of devil-bound evolution preachers, who stand in the church and blaspheme Christ, denying His virgin birth, atonement, divinity and bodily resurrection; in other words, they are jack-ass preachers without faith. This gang consists of newspaper editors and

scientists, who should be exiled out of our country for insulting the high moral standard of the creation of human life, Christianity and civilization, for they are not one hundred per cent American, but an insane set of ignorant, educated fools, who insist on lowering their own organic life to that of a monkey or animal. Take a jackass, a hog and a skunk and tie them together and you have a scientific evolutionist and a modernist. If man once evolved, then, sometime in the past, an oak tree was a pine tree, and a hickory nut tree a walnut tree. There is no such nutty law in creation.

Resistance of Tarheel he-men to the stealthy approach of Babylonish vices, as reported by the Greensboro *Daily Record*:

There isn't any class of people in the world any more harmless than is the teahound, but everyone doesn't know that, so the teahound ought to be protected.

Why, the other day right here in Greensboro a teahound suffered a humiliating experience, and he was entirely innocent. A man walked out of a store and found that an un-introduced teahound had walked up to his car and was talking to his wife. Now what do you suppose that husband did? Why, he grabbed that perfectly innocent teahound by his lovelock and mauled the street up with him. Wasn't that the most unjustified thing you ever heard of?

What makes it even worse is the fact that a member of the city council was standing nearby watching the whole proceeding with apparent glee. He was observed to laugh as if greatly amused at the occurrence.

Now, isn't that unjust for the teahound? He doesn't mean a bit of harm. He is as innocent as a babe in arms. Something ought to be done about it. It isn't fair for irate husbands to get their daily dozen by pommeling teahounds, who aren't physically equal to resist.

The teahound is helpless. We repeat, he needs protection. When a member of the Greensboro city council will stand back and laugh at a teahound who is getting rough treatment it is time to take some action.

Benign suggestion of the esteemed Willshire *Herald*:

Reassuring news from a well-informed 100% American of Ohio, as reported by the *Cleveland Press*:

The old flag should never touch the ground, but there is no law against it touching water. The Cincinnati *Times-Star* in defense of the county's men of vision:

It is too bad to record . . . that . . . there is a rising tide of antagonism to the luncheon clubs in which American business men meet once a week to discuss over a rather simple meal matters of interest to them and their communities. Rotarians, Kiwanians and similar groups writhe under the lash of the "younger intellectuals"; . . . Why are the younger intellectuals so scornful? Only on the surface is the matter puzzling. Sit in at one of these luncheons and you have the answer. The men you meet there are successful men with a bent to the practical. . . . No wild women dance on the table. No synthetic gin is served. If there is a piano in the room and the custom of choral singing, the songs in which the members join are likely to be standard things, with little jazz stuff and almost no "blues." They tell no off-color stories. They do not read James Joyce, . . .

Actual behavior of the same men of vision in Ohio, as revealed by a letter in the *Buckeye*, official Bulletin of the State Kiwanis District:

At the Youngstown meet . . . some of the visitors acted as though the Eighteenth Amendment were not a part of the law. In addition to general rowdyism, throwing of food, putting water in toy balloons, and spewing on the floor . . . they had a noise producing instrument which was an absolute nuisance. . . . At one meeting in Alliance the members of one visiting club wrecked the industrial exhibit and the

cloak room, pushing the attendants aside and throwing all apparel not theirs on the floor in heaps.

Hymeneal orgies among the Cincinnati *haute noblesse*, as described by the swooning society editor of the celebrated *Enquirer*:

Mr. Burton Closson was the leader of the groomsmen, and he divided the guests upon the epistle and the gospel sides of the church with fine impartiality. Mr. James Morgan Hutton, Jr., and Mr. William Griess added to their other duties that of placing the snowy ribbons down the central aisle, where these silken moorings formed a frail barrier between the guests and the bridal party as it passed. Mr. Reginald Banard and Mr. Richard Mellon, of Pittsburgh, a nephew of Secretary Mellon, led the way, followed by Mr. Closson, Mr. Hutton, Mr. Griess, Mr. Jesse Sweetser, of New York, who, as all the world knows, is the amateur golf champion of the United States; Mr. Bakewell Shaffer and Mr. Douglas Robbins, of Middletown, as uncle of the bride, who was a welcoming host for the guests from his own city as they arrived. All these men are accustomed to the niceties of life and their smartness and poise helped maintain the

Miracle reported by the Rev. Ernest William Nagel,  
in the *Cordell Beacon*:

In the city of Wichita there lives a woman with her family who was taken ill with cancer, and reputable physicians declared there was no hope, and so far as man was concerned, these men were correct. They wired me to come at once. When I came I found this poor woman wasted away with her disease. The first question I asked was whether she believed that in faith in Christ she could be healed. She said she did. In a simple way I asked the Lord that this woman might be spared to live with her dear family, thinking of the little children. Thirty minutes after, she arose from her bed, walked into another room and exclaimed, "I am healed." Upon examination the physicians announced that the cancer had disappeared.

How the emancipation of women is adding to the dignity of justice, as revealed by a Pittsburgh dispatch:

Mrs. Lulu Mosby, a clubwoman, and active in politics, said she battled all night to swing a jury to the acquittal of four Clarion policemen accused of felonious assault. She won acquittals for three, but the jury reported inability to agree on the fourth. Seven men and five women comprised the jury.

While the argument was at its height, Mrs. Mosby said, one woman sat on the lap of a male juror and smoked a cigarette while talking of matters far from the case under discussion. Epithets which would have been out of place in a saloon flew as her opponents sought to swerve her convictions, Mrs. Mosby said.

"Parodies of popular songs and of off-color street ditties, with my name as the butt of their ridicule, became the weapon of some jurors," she said. "Others made slurring remarks and composed jingles reflecting on me. One man looked at me and at the street, four stories below, and remarked:

The editorial page of a newspaper is the place where the beautiful in the English language should find opportunity for proper expression. From a Christian and 100% American reader of the intellectual Philadelphia *Record*:

While browsing in the Free Library of Philadelphia I discovered a sign over a row of books with the word "Biology," painted in large letters. Imagine my surprise when I read the titles (not the books) of several of them. Here are a few: "Lectures on Evolution," by Ernst Haeckel; "Origin of Species" and "Descent of Man," by Charles Darwin. . . . There is grave danger of these books getting into the hands of the students in our high schools and colleges and perhaps reading them. . . . It is the duty of our chosen representatives, if they have the welfare of our youth at heart, to protect them against the forces of darkness which seek to undermine the foundations of truth by poisoning the youthful mind with ideas. It can be readily seen that it will be useless to pass a bill prohibiting the teaching of the theory of evolution in the class-rooms of our schools if we are going to permit a leak of this information from the shelves of the public libraries. This leak would soon assume such a size as would be comparable with the leak of intoxicating beverages which our political plumbers seen unable or unwilling to shut off. As a preventative of such leak I would suggest that these books and others of their kind be removed from the shelves and no further appropriations made for additional ones.

This show of feminine charms to the general public greatly shocked the older and less exuberant ladies, and at once the placards were removed, and two more deep lace flounces added to the scanty ballet attire. Today the redraped little dancers appeared again in the many shop windows, but the beautiful monogrammed garters were hidden and the charming pink dimpled knees were covered in frills.

Moral reflections of the Christian editor of the *Baptist Visitor*, published at Spartanburg:

However unpopular this may be, we yet feel duty bound to say a word on the subject of "all day singings" that infest this section of the country. Singing is all right, and a splendid way to voice our praise, but when it turns into an all day frolic, with dinner served, with the dashing to and fro of autos, the customary number of courting couples parked around the grounds, the presence of some singing agent of a song publisher advertising the latest book, and all that goes with a gathering of that kind, we are compelled to protest and say that it is turning God's Sabbath into a day of fun and frolic. . . .

Another kindred evil is that of birthday dinners on the Sabbath. Too many people arrange their birthdays so as to

have them come on Sunday and then send out a call to neighbors and friends to join in having a feast with the revelry that usually accompanies such occasions. It is all right to celebrate an anniversary, especially if that milestone can be made to record the fact that you are one year nearer eternal rest. However we note the fact that oftentimes people are called from their customary places of worship in order to attend an all day affair of this character. Have we the right to ask our friends and kindred to forsake the house of the Lord in order to eat a big dinner in our honor? Let these occasions be on other days.

Contribution to the New Pathology by the learned Prof. Dr. W. A. Robinson, of Sisseton:

Pernicious anæmia is a case of slowly starving to death, no difference how much they eat. When the food is digested in the stomach the liquid extract of the food passes into the small intestines, where it should be taken into the system through tiny tubes to make blood, flesh and strength; but lying in wait are from 300 to 700 anæmias, many as large as the first joint of your finger. They absorb the extract of the food—THEY GET THEIRS FIRST—and the system gets what is left. . . . Some doctors say it is mal-nutrition. I agree with that, but it is no wonder; the system stands no show when a hungry herd of anæmias get all the nutriment.

The driver then climbs the fence, grabs a pig from one of the pens placed beside the judges' stand and runs back to his machine. He must then crank it and once more drive around the track, keeping hold of the pig all the time. If the pig gets away the driver must stop and catch it before proceeding with the race. When the contestant arrives at the wire the second time, he stops, returns

A distinguished State official in the *Argus Leader*:

Sociology, the bastard offspring of French atheism and Russian nihilism, is honeycombing the social fabric of America and threatens the foundations. It is the parent of every dangerous doctrine that has disturbed the nation in the last thirty years. It is alike degenerating to teacher and pupil. It is more dangerous to sanity than the loco-weed and more explosive than dynamite. Its devotees call it science, but it is really no more scientific than the urim and thummin. Its postulates are preposterous and its prophecies are refuted by the inexorable logic of events. It is firmly established in our universities and colleges and is filling the minds of our youth with iconoclasm and disloyalty. It is a drug that destroys the reasoning powers of its addicts. I am wondering how long a loyal and patriotic people will tolerate it.

News of sorcery among the Fundamentalists, from the eminent *Illinois Central Magazine*:

Working in the Nonconnah shops of the Illinois Central System at Memphis, is a Negro car repairer, Willis Watson, who claims to have divine power to ignite handkerchiefs by blowing his breath on them. The strange part of it is that he can do it. He folds a handkerchief on the bias once, gathers it into the palms of his hands held cup-shaped, makes a little pocket in the center of the cloth with his thumbs, brings his hands to his mouth, gently exhales just once and closes his hands over the handkerchief, thus forming a ball of cloth with his breath entrapped in the center. He then rolls the ball between the palms of his hands for not more than five seconds, and a thin line of smoke begins to rise. As soon as he sees the smoke he unfolds the handkerchief, and it bursts into flame.

When he was twelve years old he attended a revival meeting at Jackson, Tenn., conducted by the Rev. Sam Jones, the famous evangelist, and returned home determined to live the life of a Christian. That night he declares that a brilliant light about the size of a silver dollar appeared before him with the form of a beautiful child silhouetted in the background. Above and at the sides of this light appeared mysterious inscriptions in six different languages, only one of which, in English, was he able to read. "Read the twenty-

In the interest of common decency I want to register a protest against such conduct as I am going to attempt to describe, which occurred on the Athens-Etowah pike in open day. . . . There was a car parked directly in front of my door with five occupants. . . . I noticed the back of a man bent over something beside him, and a woman's hand on his neck. . . . The five of them . . . talked, laughed, played tricks on each other, pinched each other, snatched caps, and ate. . . . Suddenly without any cause that I could see, the young woman in the front seat fell bodily on the young man, grabbed him around the neck in a vice-like grip and jammed her face into his Adam's apple. In the course of ten or fifteen minutes she repeated the onslaught half a dozen times or more, with variations. Sometimes she would clutch him frantically and pull his head down on her chest and hold him close. Once she enveloped him in her embrace and batted her face into his jugular vein; another variation was butting her head into his breastbone while she gripped him in her arms. Once she folded him to her bosom with one arm, and tousled and

rumpled his hair with her free hand, another time varied it by dropping herself on his person and rubbing her face into his, and in another enthusiastic spasm she massaged and rubbed and patted his face. To all of these manipulations he submitted in a truly sheep-like manner. . . .

Manifesto issued to a candid world by the Hon. E. M. Edwards, of Georgetown:

Bishop Jas. E. Dickey, Presiding Over Central Texas Conference, Of Methodist Church South at Waxahachie, Refused this day to Take or Hear Detail of Complain, Neither did the Bishop appoint any Committee to investigate this matter, GIVEN BY WRITER, and THAT WRITER, A RESIDENT OF GEORGETOWN, THINKS IS BORDERING ON THE WORST FORM OF INFIDELITY, OR AT LEAST HERESY. Is civilization itself not being attacked, as well as Christianity?

On Sunday, July 26, 1925, Sunday 10 A.M. at Sunday School, in the Methodist Church South, at Georgetown, Texas, the teacher of the Men's Bible Class, a Mr. Claude Howard, and who is also a teacher in the Southwestern University at Georgetown, Texas, made the following remarks, to wit:

This is a day of FREE THOUGHT, LIBERALISM, NEW THOUGHT, etc., "and that it is not necessary, in my judgment that one belong to any church whatsoever to go to Heaven," stating further he had all respect for Sun Worshipers, or any other so called heathen god worshipers, and that he saw no reason why that all worshipers of every kind should not be saved.

I kept shaking my head at Mr. Howard telling him that I could not agree with him and it was at this time that I asked him if he were not a Universalist himself? Whereupon he replied, that "I am often called a Universalist," never

at any time denying that he was a Universalist; then it was that Mr. Howard asked Rev. Renfro his opinion along this line. Rev. Renfro replying that I heartily indorse all you have said and will change my former subject and preach along this thought at 8 P. M. During this night sermon I took down the following remarks, to wit:

"I DON'T THINK IT AT ALL NECESSARY FOR ANY ONE TO BELONG TO ANY CHURCH TO BE SAVED" (He said this in spite of Christ's words. "He that Believeth and is Baptized shall be saved",)

"It is not Necessary to KEEP ANY PARTICULAR DAY AS A DAY OF REST OR SABBATH DAY. JUST KEEP ANY ONE THAT IS THE MOST CONVENIENT TO KEEP. BUT DON'T BE SO CAREFUL TO KEEP IT SO STRICT AS OUR PURITAN FATHERS DID" (Yet the Bible set a certain day, and said "Remember the SABBATH DAY TO KEEP IT HOLY")

"I DO NOT SAY THAT A PERSON IS NOT A CHRISTIAN WHO ATTENDS THE DANCE" (We are told that John the Baptist lost his head because of the dance). When he had finished his sermon, I went to him and asked him if he meant it like he said; but he turned aside and refused to discuss it further with me.

ON Sunday Nov. 1st, 1925, Rev. Renfro in his sermon said this is a day of "NEW THOUGHT"

The Presiding Elder being out of town, and I did not know what else to do I wrote the above facts to Bishop Dickey, at Waco, but with no reply, and at same time I sent a copy of these Charges to the Presiding Elder, whom I have always known to love; but afterwards the Presiding Elder met me on the street and volunteered the conversa-

tion, talking very unkind to me for making the above complaints.

In the first part of 1925, Rev. Renfro had a Rev. Martin J. Culberth, from a city further North, to assist him in a meeting at Georgetown, Rev. Culberth speaking at the church at 7 P. M. and at the Southwestern at 10 A. M.

It was one or the other of these places that Rev. Culberth spoke of wanting to do away with the WHITE MAN'S PRIMARY IN THE SOUTH ALSO THE JIM CROW LAWS, which keep the whites and negroes separate, thus teaching, as I see, social equality between the negroes and whites. When Rev. Culberth had made his last talk at the church, it was then that the President of the Southwestern University and the Rev. Renfro, arose with a paper of indorsement that they read to the church, of Rev. Culberth's preaching, giving paper to Rev. Culberth.

As stated the Bishop, this day refused to take the above complaint. May we not pray that God will give us more MARTIN LUTHERS to nail up more truths protesting against such actions as the Bishop has taken in this case.

I am very kindly yours for old time Southern Methodism and to fight all untruthful evolution, or Modernism, or any other form of infidelity.

### Workings of the higher powers in Norfolk:

When E. W. Burroughs, electrician in the United States Navy, and Henry T. Stone, a blind fisherman, are together in a darkened room queer things are likely to happen. The furniture may take a jaunt across the floor and rearrange itself. A picture is quite likely to tumble from its hangings. A bed coverlet or carpet may rise as by magic and sail about the room.

The public learned of the peculiar psychic partnership recently through friends of the pair, who called on them to take them motoring. Burroughs and Stone entered the car, which thereafter refused to respond to its self-starter. Without showing surprise, Burroughs got out. Immediately the motor started. He walked a few yards down the road, waited for the car to catch up, and jumped aboard. The motor died.

Burroughs noticed the queer power first when he was 7 years old, he says. He met Stone and they began playing in a field. Without warning, a large clod of dirt rose up and spattered their faces. Frightened, they ran into a nearby barn, when potatoes began hopping from a bin and harness on the pegs began a jingling dance.

Machinations of Beelzebub among the Fundamentalists of the Virginia hills, as described in a letter to the celebrated Baltimore *Sunpaper*:

I wish to make a correction regarding the arrest of Dr. E. J. Bulgin while fishing. It was stated he was arrested and fined for fishing without a license.

He did fish without a license, but was the guest of Mr. H. H. Hudson, of this town. The State game and fish laws of Virginia provide that a non-resident may fish without a license, being a guest of a resident—Section 3209, Page 64. Mr. Hudson took Dr. Bulgin in his car, paid for the bait and boat and furnished the dinner. Dr. Bulgin and his party are also guests of the town of Luray and Page county.

We think the laws should be enforced when violated, but we, in the light of Section 3209, don't believe Dr. Bulgin violated any fishing laws. Still, he was fined.

Dr. Bulgin is one of the strongest and most widely known evangelists in the country, is a law-abiding citizen and stands for law enforcement. He preaches the Gospel of Jesus Christ and his work makes men better and gives the devil a black eye. The devil always tries to undo Dr. Bulgin's work and uses human instrumentality to carry out his (the devil's) plans.

Occult doings in the chapel of St. Joseph's Hospital at Milwaukee, as reported by the correspondent of the eminent Chicago *Tribune*:

Following the celebration of mass, the exorcism ritual was begun. In Latin, a language of which the woman was ignorant, the following questions were asked:

"Who are you?"

"Beezelbub," was the reply that issued from the throat of the woman in a deep, masculine tone.

"How is it that you possess this woman?" was the next query.

"Because of malediction," came the answer.

"At what time will you leave her?"

"At 2 o'clock."

In the course of the reading of the exorcism ritual, the woman broke in with the cry, "Send me to some person or place upon the earth, but do not send me back to hell."

At 2 o'clock, six hours after the ritual had begun, no change was visible in the woman's actions. Father Justin, a monk, then berated the devil with, "You are a maledictive liar, Beezelbub! You have not left this woman, as you promised."

At 5:30, however, the woman was seen to relax as if from sheer exhaustion. The questioning was continued.

"Do you know where you are?" asked Father Theophilus.

The woman then answered in her natural voice, "I am in church."

Asked if she knew the reason for her presence there, she replied, "I can't remember coming here."

The woman was then taken to her room in the hospital. Hundreds of persons daily are seeking admittance to the hospital but no one is allowed to see the patient.

Marooned amid the cosmopolitan throng at the corner of the Rue de la Paix and the Rue Daunou this morning, a slender man, who was evidently bewildered, informed a policeman, who could not understand him, that he had lost his way.

It was James Oliver Curwood, famous American novelist, who can trail a bear through the wilderness of the North with no other signs than broken twigs and bruised tree bark, but who confesses himself lost in Paris every time he leaves his hotel.

"I wish I was back in Michigan," Curwood declared to me as he boarded a train with his wife and family for Rome. "There is more culture, architecture, knowledge, education and fundamental truth in one acre of Northern woods than in all Europe."

A great British-Canadian, patriotic, fraternal organization

—the most powerful secret Order existing in the Empire; in which persons resident within the Empire may be taught the significance and essential value of being loyal subjects thereto; in which members may fraternize in an atmosphere of pure British Patriotism and, under a common oath and strict regulations, will be bound into a common brotherhood for the noble purpose of cultivating genuine loyalty to the Dominion of Canada and the British Crown, of promoting and protecting the lofty principles, traditions, ideals and institutions of the British Empire and her Dominions and Colonies, and of keeping the Empire secure from both foreign tyranny and internal treason; an Order which, while advocating justice to all people, is, nevertheless pledged to maintain the supremacy of the White race, the rights of Gentiles, and the integrity of the Protestant Faith, to shield the sanctity of the home and the chastity of womanhood, to uphold law and order and insist on the complete separation of Church and State, to exemplify practical benevolence and practice an honorable clan-nishness among the members, and, through the medium of an exalted and perfected ritual, the basis of which is found in the teachings of the Holy Bible, to inculcate a high spiritual philosophy.

Nothing can be clearer than that all persons who affiliate themselves with this Order and unselfishly strive for the promulgation of these eternal principles will be nobler men and better British subjects.

Dire consequences are feared in Tibet if tobacco is introduced into that hermit kingdom, it is revealed in a copy of an official letter of the Tibetan Government declining to permit the introduction of cigarettes by a British tobacco firm, which has been received at the U. S. National Museum. The letter says in part: "The country of Tibet is a holy kingdom and in this country there reside many Gods and Lamas and protecting Gods. By smoking cigarettes they will disappear like the clouds and misfortune will arise and the bad smell which will spread everywhere will affect men and animals, causing sickness, death, and disease to all, and also the loss of fortune and wealth of the people. Therefore we want to be saved from this and to study the benefit of all. The Tibetan Government does not allow the smoking of cigarettes in Tibet to anybody. We have informed the Indian Government of this at the same time. Though levying a tax on cigarettes in Tibet would be very good to make profits, yet it would cause great harm and sickness to Tibet as well as bad fortune." # THE HISTORY OF THE

The history of the world is a vast and complex subject, encompassing the lives of countless individuals and the events that have shaped our planet. From the dawn of time to the present day, the human story is one of constant change and evolution. The early civilizations of Mesopotamia, Egypt, and the Indus Valley laid the foundations of human society, while the Greek and Roman empires brought about the birth of Western civilization. The Middle Ages saw the rise of Christianity and the growth of the European continent, while the Renaissance and the Enlightenment brought about a new era of scientific discovery and intellectual freedom. The modern world, with its technological advances and global communication, has brought about unprecedented challenges and opportunities. The history of the world is a testament to the resilience and ingenuity of the human spirit, and it is a story that continues to unfold before our eyes.

## NOTES

---

### *Alabama*

1. Law Enforcement is a term that is used only in speaking of the effort to enforce such laws as invade the liberty of the individual. There are, in the United States, many societies devoted to the enforcement of such sumptuary statutes, and some of them are very powerful politically. The Anti-Saloon League, which specializes in Prohibition, is an example. But in almost every State there is also a Lord's Day Alliance, devoted to enforcing the Sabbatarian statutes surviving from colonial days. The multitudinous Comstock Societies fall under the same heading. Such societies are manned, in the main, by persons who get pleasure out of harassing their fellow-citizens from behind a safe breastwork of policemen. Their efforts are almost always in vain. The sumptuary laws are seldom actually enforced, save in rural communities. But they offer capital opportunities to blackmailers. The term Law Enforcement is never used in speaking of the enforcement of the ordinary laws. Most Prohibitionists, in fact, believe that such ordinary laws ought to be sacrificed to Prohibition. That is, they believe that it is perfectly moral to employ house-breaking, armed assault, and even murder in executing the Volstead Act.

2. General Joseph E. Johnston was a distinguished commander on the Confederate side in the Civil War, 1861-1865, and has become a legendary hero in the South. He surrendered to Sherman April 26, 1865.

3. The Ku Klux Klan is perhaps too well known to need description. It originated as a movement of the Southern poor whites against the Negroes, and took its name from an organization formed in the South after the Civil War to put down the political and other excesses of the emancipated Negro slaves. But the two organizations are not to be confused. The latter-day Klan is very inferior. It is rapidly degenerating to the estate of an adjunct to the Methodist-Baptist *bloc* of evangelical churches, and is now mainly devoted to arousing the populace against the Catholics and to Law Enforcement (see *Alabama* 1). It has no strength in the large cities, but survives in the South and Middle West. In the latter region it is still powerful politically. Everywhere it works in alliance with the Anti-Saloon League.

4. Chink: a Chinaman. The word is frequently used as an adjective in place of Chinese.

5. Denny is a Virginian, and was formerly a professor of Latin. His studies, however, did not shake his Christian faith, and he remains a sound Presbyterian. He is A.B., A.M., Ph.D., D.C.L. and four times LL.D.

backwoodsmen routed an equal force of British and Loyalists troops. Who Jinny Bean was I don't know.

7. A.M.E.: African Methodist Episcopal.

8. Normal school: a public institution for the training of school-teachers.

9. Tuskegee: the seat of the great Negro school founded by Booker T. Washington. The members of its faculty constitute a Negro aristocracy, and their presence at a social function indicates that it is high in tone.

10. Mortician: a euphemism for undertaker. See *Illinois* 3.

11. Hookworm: an intestinal parasite (*Necator americanus*). The victim shows great lassitude and mental dulness. The general slackness of the low-caste Southerners is largely due to hookworm infestation. It is also partly responsible for their intense piety.

### *Arizona*

1. White wing: a member of the street-cleaning brigade. Throughout the United States these men wear white cotton uniforms and white helmets.

2. The American Legion is an organization of soldiers who served in the World War. It is largely made up of drafted men who saw little, if any service in battle, and devotes itself to milking the public treasury.

3. Rotary scarcely needs explanation: it has extended everywhere. In each town there is a club. The members represent different avocations, and once a week they meet at luncheon, slap one another's backs, sing sentimental songs, and listen to gaudy speeches. In the smaller towns

it is a distinction to belong to Rotary, but in the big cities it is commonly regarded somewhat sniffishly.

*Arkansas*

1. The Volstead Act is the statute which presumes to enforce Prohibition. It is violated everywhere.
2. Paul Whiteman is a popular leader of jazz bands.
3. See *Alabama* 11.
4. Moonshine, in the old days of license, meant whiskey distilled illicitly and upon which no excise was paid. Now it means any whiskey of rural manufacture.
5. Old Glory: the national flag. Also commonly called the Stars and Stripes.
6. The Missionary Baptists are a sect infesting the more remote rural regions. Their doctrines remain somewhat mysterious, but it is known that they are very pious, and baptize by total immersion.

*California*

1. Want ad: a small advertisement inserted by a private person, usually asking for lodgings or a situation.
2. New Thought: a mystical cult that is very flourishing in the United States. Its adherents believe that all diseases may be cured by thinking against them. It is especially strong in Los Angeles, a city largely peopled by retired farmers from the Middle West.
3. Kiwanis is a sort of imitation of Rotary. See *Arizona* 3.
4. Oakland is a suburb of San Francisco, from which

## NOTES

---

it is separated by an arm of San Francisco Bay. Its chief distinction is that it was once the home of Ambrose Bierce.

5. Shriner: a member of the Ancient and Arabic Order of the Nobles of the Mystic Shrine, an adjunct of Freemasonry. Once a year the Nobles meet in some large city, array themselves in gorgeous robes, and march in a parade. Then they go into session with the bootleggers. They are mainly middle-aged business men.

6. Bryanite: a follower of the late William Jennings Bryan—that is to say, one who believes in the literal accuracy of the Bible as history.

7. Daylight-saving time: Summer time. It is opposed throughout rural America on religious grounds. The rustics believe that setting the clock ahead an hour will anger God and provoke lightning.

8. Mental anguish is a ground for divorce in many American States, though not in all. Thus, a wife may get a divorce if her husband causes her mental anguish by questioning her fidelity.

9. Eminent artists: that is to say, cinema actors and actresses. Hollywood, a suburb of Los Angeles, is the seat of most of the large film-producing companies. The artists there resident receive large salaries, and lead a merry, levantine life.

10. Most American newspapers maintain staff poets. McGroarty serves the Los Angeles *Times* in that capacity, and is greatly admired by the retired farmers who swarm in Southern California.

11. A Civil Service Commission is an official body ap-

pointed to examine applicants for posts in the Civil Service.

12. **Aframerican**: a portmanteau word made up of African and American. It designates an American of color.

13. **Frederick Douglass**, born in slavery in 1817, was a celebrated Negro leader in the days before the Civil War. He traversed the Northern States advocating the abolition of slavery, and was also heard in England.

14. **He-man**: a Western term designating one completely free from effeminate weaknesses. He-men are masculine in every attitude and gesture, physical and mental. The antithesis of a he-man is a lizzie.

15. **Lions' Club**: an organization modelled on Rotary and Kiwanis. See *Arizona* 3 and *California* 3.

16. **Jesse James and Rube Burrows** were celebrated outlaws of a generation ago in the West.

17. **Auf wiedersehen**: German for "until we meet again." It is one of a large number of German phrases that have crept into the American language.

18. **Elbert H. Gary**, formerly a judge, is chairman of the United States Steel Corporation. He is very pious, and frequently delivers platitudinous speeches. He is generally regarded in the United States as a man of immense wisdom, and his most trivial utterances are reported by the newspapers.

### *Colorado*

1. **Chores**: the common round of household tasks.

## NOTES

---

2. Commercial Club: another imitator of Rotary. See *Arizona* 3.
3. Jack Dempsey: the heavy-weight pugilist, a native of Manassa.
4. Janitor: the care-taker of a building.

### *Connecticut*

1. Trinity College is a small institution at Hartford, Conn. It is controlled by the Protestant Episcopal Church, the American branch of the Church of England.

### *District of Columbia*

1. Women public officials are becoming common in America. In Ohio, the home State of Mrs. Willebrandt, there is a woman Supreme Court judge.
2. The *Congressional Record* is the American Hansard. It contains a complete stenographic report of the daily debates in the two Houses of Congress, and much other matter, inserted by members under "leave to print" orders.
3. In all official documents members of Congress are referred to as "the Hon.," though there is no warrant in American law for the designation.
4. A cheer leader is a student told off to lead his fellows when they deliver the university yell or applaud their athletes.
5. Apparently pep comes from the word pepper. It designates high animal spirits, which are regarded as laudable.

*Florida*

1. William Jennings Bryan was a citizen of Florida at the time of his death. He was employed by estate agents there to make speeches to crowds of potential customers, and so promote the sale of building sites.

2. Alice Rhinelanders is a colored woman, and her husband is white. He sought an annulment of their marriage, alleging that he thought she was white when he married her, but he was defeated in court. In all the Southern States such mixed marriages are forbidden, and parties to them may be imprisoned.

3. That region in which the literal accuracy of the Bible as history is accepted. It covers the whole United States, save for the larger cities.

4. He-Christian: a Christian who is also a he-man. The document quoted is a typical specimen of he-Christian literature.

*Illinois*

1. Babbitt: a generic name designating the more stupid, sentimental and credulous sort of business man. It is borrowed from the name of the chief character in Sinclair Lewis' novel, "Babbitt."

2. Sauer-kraut: a German delicacy, made by slicing and fermenting cabbage. It was introduced into the American cuisine by German immigrants, and is now very popular. During the late war the Government decreed that the original name be dropped, and liberty-cabbage substituted, but the change was opposed by public senti-

ment. Sauer-kraut is supposed to be full of vitamins, and is thus regarded as a very salubrious victual.

3. Mortician: see also *Alabama* 9.

### *Indiana*

1. Notre Dame, as its name indicates, is controlled by the Roman Catholics. It has an enrolment of nearly 2,500 students.

2. It is not unusual in America for a judge to engage in partisan politics. It will be recalled that Dr. Charles Evans Hughes left the bench of the Supreme Court of the United States to stand for the Presidency in opposition to Dr. Wilson in 1916.

3. Church of Christ: a sect of fanatics.

### *Iowa*

1. Buddy: a term of affection for a fellow soldier.

2. Two-bits: 25 cents.

3. Frankfurter: a favorite American sausage. When roasted it is often called a hot dog. The popular theory is that it is made of dog meat.

### *Kansas*

1. Corn: a crude whiskey made of Indian corn.

2. Shyster: a pettifogger. Apparently the word is of German origin.

3. Hyphenate: an America who was born somewhere else, and shows an affection for the country of his origin. During the late war the German-Americans were vio-

lently denounced as hyphenates. The term was originated, I believe, by Theodore Roosevelt.

*Kentucky*

1. The K.K.K.: the Ku Klux Klan. See *Alabama* 3.
2. In the mountains of Kentucky the blood feud still prevails, and many mountaineers are slaughtered annually.

*Louisiana*

1. A realtor is an estate agent of the superior sort. The term represents an effort to dignify the craft by giving its practitioners a high-sounding appellation. See also *Mortician*, *Alabama* 10.
2. Fundamentalism: the doctrine that the Bible is literally true, and especially the first book of Genesis. The Fundamentalists are very powerful in the South and Middle West, and are rapidly filling the State statute-books with laws forbidding the teaching of evolution in schools maintained at the public expense, including the State universities.
3. See *California* 1.

*Maine*

1. *I.e.*, of contraband alcoholic beverages.

*Maryland Free State*

1. So called because it supports a political faction which believes literally in the guarantees of the Bill of

## NOTES

---

Rights, and is thus opposed to the common American practice of sending unpopular men to jail on vague and preposterous charges. See *Maryland Free State* 3. This faction consists of five members.

2. Gold Star Mothers: an organization of women who lost sons in the late war. Such a bereaved mother is entitled to fly a service flag from her house, bearing a gold star for each son lost.

3. Slurring the United States, *i.e.*, denouncing the Government in a violent manner. It is not punishable by law in most States, but offenders are commonly laid by the heels by charging them with disorderly conduct or disturbing the peace.

4. A go-getter is a man of active and even violent enterprise—one who is determined to get what he wants at all costs.

5. A back-formation, derived from enthusiasm.

6. Petting party: a common euphemism. Its meaning here should not be concealed from the judicious reader.

### *Massachusetts*

1. See *California* 2.

2. Sheik movies: cinema films showing the adventures of heroes with a talent for ensnaring the fair.

3. Trolley-car: a tram-car.

4. The *Christian Science Sentinel* is a daily newspaper published in Boston by the Christian Scientists. It supports Prohibition.

5. Social Register: a roster of fashionables, published

annually in every large American city. The newly rich make herculean efforts to get their names into it.

6. Petting: fondling and kissing. There is much protest against its prevalence among the younger generation.

### *Michigan*

1. Swift & Company, the Chicago meat-packers, offer a ham under the brand of the Swift Premium.

2. A booster is one who devotes himself to proclaiming the virtues of his home town. To be a booster is almost a religious obligation in most American communities.

3. Edgar Albert Guest, an Englishman by birth, is a favorite manufacturer of popular poetry. His compositions are printed in scores of newspapers daily, and are vastly admired by millions. He has grown rich by the practise of his art.

4. Blind pig: an illicit liquor shop.

5. See *Michigan* 3.

6. Couzens was formerly a partner of Henry Ford. He retired with \$75,000,000, and is now a United States Senator. Politically, he has very liberal ideas.

### *Minnesota*

1. W. C. T. U.: the Woman's Christian Temperance Union. Founded in 1874, it played an important part in the long campaign for the adoption of Prohibition, finally successful in 1920.

## NOTES

---

2. O'Cedar: a proprietary cleansing compound.
3. See *Minnesota* 1.

### *Mississippi*

1. See *Massachusetts* 6.

### *Missouri*

1. See *Maryland Free State* 4.
2. The author of "The Man With the Hoe."
3. See *Michigan* 3.
4. Clarence Darrow, the chief counsel for Scopes.
5. All-day sucker: a sweet.

### *Nebraska*

1. The adventures of Andy Gump and his family are depicted in hundreds of American newspapers every day. Andy himself is almost as well known as Dr. Coolidge.
2. Chiropractic is a medical quackery which teaches that all diseases are caused by the pressure of misplaced bones, usually of the vertebræ, upon nerves. Its practitioners are mainly ignoramuses. But they are immensely successful in the rural sections, and have even got a lodgment in the big cities.

### *Nevada*

1. Seniors: members of the upper class.

### *New Jersey*

1. Walt Whitman lived in Camden for many years

before his death. His old home there is now preserved as a literary shrine, but during his lifetime Camden viewed him askance.

2. Comfort station, or public comfort station, is a euphemism to conceal a public W. C.

*New Mexico*

1. Green Indian corn, a favorite American delicacy. It is gnawed from the cob, and eating it is a rather messy business.

*New York*

1. The Jews now constitute a third of the population of New York.

2. Dell is a Socialist novelist, Miss Wylie is a poet and novelist, and Benét, her husband, is a poet.

3. The Lord's Day Alliance is an organization of fanatics advocating the strictest Sabbatarianism. It is very powerful in the South and Middle West, but its greatest feats of suppression are achieved, not in the United States, but in Ontario, Canada.

4. This amusing journal, which denounced the Catholics and Jews with immense enthusiasm, is now extinct.

5. Jewish Science evidently represents an effort to reclaim the thousands of American Jews who, on attaining affluence, have embraced Christian Science as a means of escape from the synagogue. Many others have become Episcopalians, *i.e.*, members of the American branch of the Church of England.

## NOTES

---

6. Josephus was Secretary of the Navy in the Cabinet of Dr. Wilson. His paper is one of the leading journals of the South.

### *Ohio*

1. The Lucy Stone League carries on an agitation for greater independence for married women. It advocates their retention of their maiden names. Lucy Stone, born in 1818, was a pioneer American suffragist. She married one Henry B. Blackwell, but retained her maiden name.

2. In many American cities the official in charge of the police force, the fire brigade, etc., is called a safety director.

3. See *Michigan* 2.

4. This high-sounding organization is analagous to the Nobles of the Mystic Shrine. See *California* 5.

5. Publicist: a favorite American euphemism for press-agent.

6. The Co-operative Club is an imitator of Rotary. See *Arizona* 3.

### *Oregon*

1. A Federal statute forbidding the transportation of women across State borders "for immoral purposes." It was passed on the plea that it was needed to put down the white slave trade, but it is now used to persecute men whose amorous successes arouse the envy of the rabble.

2. See *Michigan* 3.

*Pennsylvania*

1. See *Illinois* 1.
2. The *Public Ledger* is owned by Cyrus H. K. Curtis, the proprietor of the *Ladies' Home Journal* and the *Saturday Evening Post*. All of his publications are inordinately conservative in politics.
3. P. O. S. A.: the Patriotic Order, Sons of America. An organization of mechanics and small farmers, allied in doctrine to the Ku Klux Klan.

*South Carolina*

1. The Hon. Cole L. Blease, formerly Governor of South Carolina, and now one of the State's representatives in the United States Senate, is a stormy figure in Southern politics. He rose to power as an exponent of the class of poor whites; and is a bitter critic of the old Southern aristocracy.

*South Dakota*

2. Every American college of any pretensions employs professional coaches to train its athletes. In many colleges they rank as members of the faculty.

*Tennessee*

1. It was in Tennessee, it will be recalled, that the Scopes trial was held. It would ruin any politician in the State to be suspected of believing in evolution.
2. The Seventh Day Adventists, who have many adherents in the Appalachian mountain region, believe that

2. A copy-reader is a sub-editor.

## A NOTE ON THE TYPE IN WHICH THIS BOOK IS SET

*The type in which this book has been set (on the Linotype) is based on the design of Caslon. It is generally conceded that William Caslon (1692-1766) brought the old-style letter to its highest perfection and while certain modifications have been introduced to meet changing printing conditions, the basic design of the Caslon letters has never been improved. The type selected for this book is a modern adaptation rather than an exact copy of the original Caslon. The principal difference to be noted is a slight shortening of the ascending and descending letters to accommodate a larger face on a given body-size.*
